Education

Acharya Institute of Technology

Computer Science and Engineering

November 2022 – April 2026

Bangalore, KA

Vidya P Hanchinmani PU College

Science (PCMB – DPUE)

September 2020 – April 2022

Dharwad, KA

Coursework / Skills

- Data Structures & Algorithms
- Python
- Web Development (Django)
- REST APIs & System Design
- Database Management (SQL, MySQL)
- IoT Systems & Cloud Integration
- Machine Learning (LSTM, TensorFlow)
- Git, GitHub, Docker

Experience

Parvam Software Solutions

Python Full Stack Developer Intern

Bangalore, KA

Feb 2026 – Present

- Built and deployed a full-stack web application using HTML, CSS, JavaScript, and Python (Django), developing reusable templates and REST API endpoints, integrating frontend components with backend logic, and collaborating on debugging, code reviews, and production deployments.

Projects

SoilGuard: IoT + Machine Learning Irrigation System *Python, ESP8266, LSTM, TensorFlow, SQL, Blynk Cloud*

- Built an end-to-end IoT system using ESP8266 and Python, enabling real-time monitoring of soil conditions across multiple sensors.
- Developed an LSTM model using TensorFlow to predict soil moisture 24 hours ahead, improving irrigation efficiency by 35%.
- Implemented cloud-based monitoring using Blynk and SQL storage, enabling real-time alerts and reducing manual monitoring effort by ~40%.

Personal Finance Tracker: Full Stack Web Application *Python, Flask, JavaScript, SQL, HTML/CSS*

- Developed a full-stack web application using Flask (MVC), implementing secure authentication and role-based access control for 100+ simulated users.
- Designed optimised SQL queries and database schema, improving financial data processing speed by ~30%.
- Built REST APIs and interactive dashboards using Chart.js, reducing user task completion time by 30% through streamlined UI workflows.

Technical Skills

Languages: Python, Java(Basics)

Developer Tools: Git, GitHub, Docker, VS Code

Technologies / Frameworks: HTML, CSS, JavaScript, Django, Blynk Cloud

Databases: SQL, MySQL

Other: IoT Systems (ESP8266), TensorFlow (LSTM), REST APIs

Certifications

- **Java SE 17 Developer (1Z0-829)** — LinkedIn Learning — Advanced Java programming and certification preparation
- **OpenEDG Python Institute: Programming with Python Professional Certificate** — Advanced Python concepts and best practices
- **Introduction to Generative AI** — Simplilearn — Understanding AI/ML concepts and applications
